

The Vintage Toy Shop, Vol. 7 Vintage Board Game Boxes (1:12 scale)

Required tools and supplies:

- X-acto knife and fresh blade and detailing scissors
- A thin metal straight-edge ruler. Make fold lines by pressing against edge of the ruler.
- Tweezers
- Good cutting mat (cardboard will ruin your blades and project)
- Fast-grab, quick-dry white craft glue that dries clear
- Small piece of aluminum foil to use as a glue pot
- Slender artist's paint brush to apply glue

1. Cut pieces. Then fold as indicated in photo against a metal-edge ruler to get the best creases possible.

2. Paint glue to each tab found at corners.

3. Use tweezers to press tabs to respective sides.

4. I found gluing long tabs to outside of the bottom panel easiest for me and then I pressed evenly against the cutting mat to get a flat bottom. You may prefer to glue bottom on top of long tabs.
